

CANARY WHARF NATURE TRAIL MAP

Experience the beauty of carefully curated green spaces that evolve with the seasons, inviting you to explore and unwind within the Wharf.

A EDEN DOCK

Eden Dock features lush plantings and the soothing sound of water, offering a moment of tranquility in the heart of Canary Wharf. A waterfront oasis of interconnected pontoons and aquatic islands, it has been designed to elevate mental and physical wellbeing through the power of nature.

B WESTFERRY CIRCUS

This is the oldest park in Canary Wharf. Here you will find a variety of interesting trees and shrubs including English Oak, Red Oak, Magnolia Kobus, Yucca, Hazel and many other species.

C CANADA SQUARE PARK

A park. A gathering point. A summer event space. All plant species grown here in Canada Square Park originate from North America, and include the Sugar Maple, American Lime and Red Oak trees.

D CROSSRAIL PLACE ROOF GARDEN

The planting evokes the rich heritage of the London Docklands and the species of plants were chosen to depict the various supply routes of goods that arrived in the West India Dock. Here you can find two geographic zones: in the Western hemisphere of the garden are tree ferns from Australia, New Zealand, USA and Mexico and in the Eastern hemisphere are different kinds of bamboo from Japan and China, as well as Japanese Maple.

E JUBILEE PARK

Take a walk through our biggest park which has over 200 very rare deciduous Dawn Redwood trees. The large ponds form the centrepiece of Jubilee Park, containing a number of fish and serving as a summer watering hole for ducks and birds – see if you can spot our resident Wagtails curiously peeking into the water!

F HARBOUR QUAY

A city spot with a summery atmosphere year-round. Enjoy a stroll on the boardwalk, relax by the water, or grab a coffee dockside.

G HARBORD SQUARE

The landscaped park offers a green space available for mindfulness activities.
